ACTIVITIES OF TOWN PLANNING COMMITTEE

In order to stimulate a wide interest in the vital subject of Zoning, Huck Pennefather has organized a steering committee and four subcommittees comprising in all some twenty-two members.

The steering committee is expected to co-ordinate the efforts of the four subcommittees which represent the East, Centre, North and West areas of our Town.

At the first meeting held Thursday, February 19th, at the Town Hall the Committee endeavoured to define and clarify their ideas on Zoning and to outline the job to be done.

A very essential question was discussed, namely, what Zoning and building regulations would be enforceable under the Charter of the Town. It soon became evident that a thorough study of the Charter and Minute Books would be an essential preliminary to the Committee's work.

Alderman Allan has undertaken to obtain these documents and the steering Committee proposes to meet at an early date to determine whether the present Charter will present any obstacles to the work of the Committee.

During the early discussion at the meeting the Committee encountered no difficulty in arriving at a definition of Zoning which agreed with the preconceived ideas of all Members, this definition is - Control of the development of a Community to insure conformity in the use of land and growth according to plan.

THE RECORD

The regular monthly meeting held on Friday, February 13th, was preceded by a special meeting in order to elect an assistant Secretary to the Executive Committee. Mrs. Laird and Mrs. Vautier were proposed for the office and as a result of the voting the latter was declared elected.

During the regular meeting Mr. Holliday announced that the C.P.R. was definitely going to proceed with the installation of electric lights at the Railway Station. However in this regard our indulgence has been asked since necessary equipment now in short supply may take two to three months to obtain. Mr. Laird's hard work and perseverance has thus been consummated in success and on behalf of all Citizens it can only be said how much his efforts were appreciated. A letter of thanks has been forwarded to the C.P.R. in reply to their letter in which they confirmed their intended action.

Question of sanding the roads was taken up with the Council who are having the Roads Committee attend to this matter.

When facts are not clear or where concise authoritative information is required in order to formulate a clear cut decision, it was decided to hand the matter over to the Committee concerned for study and report. As a result of this decision, the Fact Finding Committee will make inquiries into the Montreal Community Council.

Public Service Committee will look into the question of obtaining suitable fire extinguishing equipment to be installed in the Town Hall as well as having someone police the grounds, at the same time act as a building inspector.

Council's decision to have Chimneys swept with the nominal charge being added to the tax bill was approved. It was strongly suggested that people be informed a day or so before the Chimney Sweep was to arrive so that necessary precautions would be taken against excessive dirt.

New Members were welcomed into the Association. Reports from the various Committee Chairmen were made indicating that their Committees are well on the way to formation. Treasurers report indicated a very favourable static financial position.

Bill Parker,
Secretary.
